

**Bureau Insurance Services Ltd was established in 1997 to create and administer non-standard Household Insurances. It now manages several schemes with the main emphasis on household insurance.**

Bureau Insurance Services Ltd "Flood Insure" scheme aims to provide full terms household cover for homes that have previously flooded or are at future risk of flooding. We are able to do this because the nationwide coverage of experienced surveyors from Flood Solutions Ltd are, in the majority of cases, able to recommend flood resilient/resistant measures that will enable cover to be granted. Our partner company Flood Solutions Ltd provides the route to insurance cover.

**The "Flood Insure" process and possible survey costs**

- Step One:** Complete questionnaire from our website  
[www.bureauinsure.co.uk/flood-insurances](http://www.bureauinsure.co.uk/flood-insurances)
- Step Two:** Desk top survey (£35 + VAT)
- Step Three:** Onsite survey (£495 + VAT)
- Step Four:** Install any recommendations
- Step Five:** Receive Insurance cover at an affordable rate

- Properties with previous flooding history considered
- Nationwide coverage of experienced surveyors
- An Insurance product highly regarded within the industry
- Over ten years' experience of providing specialist flood insurance
- Affordable premiums with a maximum excess of just £2,500
